OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Data contextualization and analysis goal.
- Methodology description.
 - Data gathering.
 - Data analysis.
 - Data visualization.
- Results presentation supported with graphs and trends.
- Discussions of overall findings and implication regarding the results previously exposed.
- Final conclusions of the carried out research.

INTRODUCTION

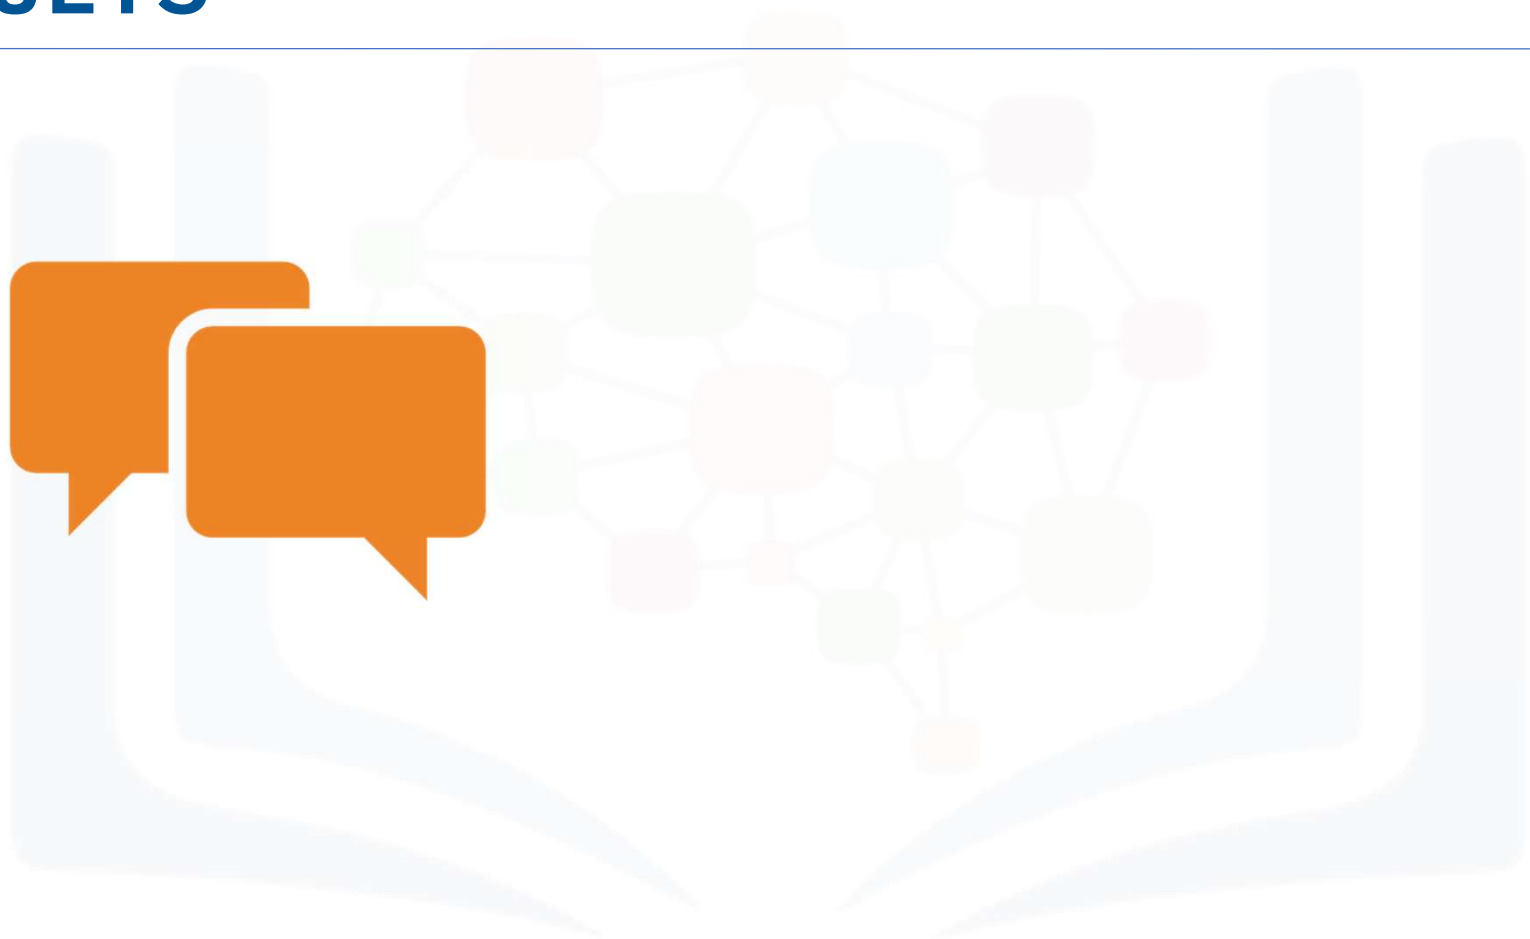

- Stack Overflow's annual developer survey is the largest and most comprehensive survey of people who code in the world.
- Results don't represent everyone in community evenly.
- Nearly 90000 developers.
- Trends to predict where the developers are going.
- Characterization of developers around the globe.

METHODOLOGY

- Collect survey data and explore its content.
 - Web scraping.
 - APIs.
 - Request library.
- Data Wrangling.
- Exploratory Data Analysis.
 - Analyzing data distribution.
 - Handling outliers.
 - Correlation.
- Data Visualization.
 - Highlight distribution of data, relationships, the composition and comparison of data.
- Dashboards.

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- MySQL as most used database.
- Lack of interest in Microsoft SQL Server and SQLite.
- Increasing interest in PostgreSQL and MongoDB.

Implications

- Microsoft SQL Server and SQLite losing ground in the market.
- PostgreSQL and MongoDB establishment in the market.

DISCUSSION

OVERALL FINDINGS & IMPLICATIONS

Findings

- JavaScript widely used and TypeScript getting popular.
- Over 90% young male developers.
- Developers mostly located in developed countries.

Implications

- JavaScript used and TypeScript web frames gaining followers.
- Global polarization of developers location and gender.
- Young developers without postgrad studies on its majority.

CONCLUSION

- Developers are very marked people with characteristics.
- A good idea of popularity trends of different tools, platforms and languages can be obtained.
- There is job to be done to spread accessibility of this labor market to countries in development.
